Welcome

Prof. Xu Qiang

President of Chengdu University of Technology

Xu Qiang

Founded in 1956, Chengdu University of Technology (CDUT) is located in western China, with two campuses — Chengdu Campus and Yibin Campus. Adhering to the motto "Seeking Truth, Seeking Triumph," CDUT is recognized as one of Double First-class universities in China, with the discipline of Earth Science ranking among the world's top 1.79‰ in ESI. Equipped with two national key laboratories and 38 provincial and ministerial research platforms, CDUT reinforces its strengths in Earth Science and its distinct features in science and engineering, establishing itself as a comprehensive university focusing on interdisciplinary integration.

At CDUT, distinguished scholars and diverse ideas converge. You can delve into the cutting-edge of science and future technological trends, while also immersing yourself in a diverse array of campus cultural activities. Here, you can fully tap into your curiosity and creativity, igniting the brilliance of your dreams.

The journey of CDUT is marked by continuous progress. Since its inception, CDUT has been dedicated to becoming a world-class high-level research university. CDUT's progress is far from over. CDUT warmly welcomes outstanding young talents from around the world to embark on this journey with us and bravely scale the heights of knowledge. I look forward to your arrival and the great things you will achieve.

Discover Chengdu: A Great City for International Students

CDUT is situated in Chengdu, an ancient capital with a millennia-old history. Renowned as a "park city" under snow-capped mountains, Chengdu is also a megacity, a national central city, and one of the first batch of national historical and cultural cities in China. This city boasts a rich historical legacy and profound cultural heritage, while also standing as an economically developed and international modern metropolis. It is an ideal place to live and work and has been recognized as one of China's Happiest Cities for several consecutive years.

In and around Chengdu, you'll find a range of fascinating destinations worthy of visiting and exploration.

The Chengdu Research Base of Giant Panda Breeding, just a short distance from the main urban area, offers a rare chance to see adorable giant pandas up close. The Dujiangyan Irrigation System, located in Dujiangyan City, is a 2,000-year-old water conservancy marvel that has been perfectly preserved. Near Chengdu, the Qingcheng Mountain Scenic Area is celebrated for its beautiful scenery and deep cultural heritage.

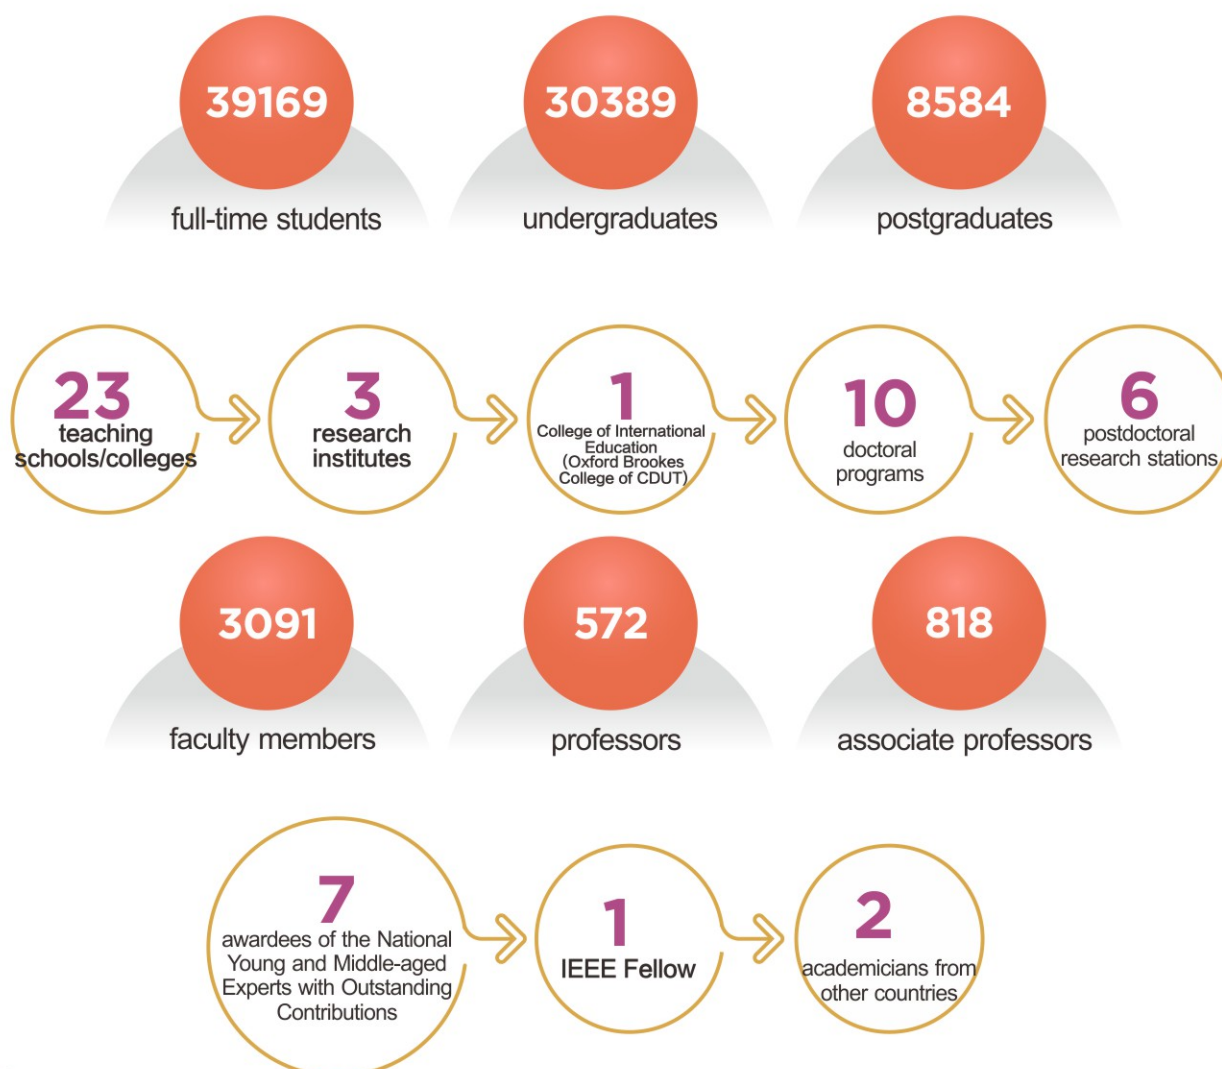

The characteristic urban blocks of Jinli and Kuanzhai Alley epitomize the unique Sichuan features. Meanwhile, the simple yet elegant architecture and rich poetic inscriptions in Du Fu Thatched Cottage capture the poetic charm of the Tang Dynasty.

About Chengdu University of Technology

Chengdu University of Technology (CDUT) has two campuses--Chengdu Campus and Yibin Campus. The Chengdu Campus is situated in the Chenghua District, one of the five old city districts of Chengdu. The campus is surrounded by cultural and creative parks like the Eastern Suburb Memory and renowned attractions like the Chengdu Research Base of Giant Panda Breeding. Its location near multiple subway lines ensures convenient and accessible transportation. The campus, expanded several times, is now one of the largest university campuses within Chengdu's Third Ring Road.

The Yibin Campus is situated in Yibin, a renowned national historic and cultural city in China. It began operations in August 2020, offering programs tailored to the regional economic industry and facilitating the strategic implementation of both the university and the region.

Program of the Ministry of Education

ESI 1%

CDUT's Earth Science, Engineering, Environmental
Science/Ecology, Chemistry, and Materials Science
have entered the top 1% of ESI global rankings, with
Earth Science has ranked among the top 1.79‰ of
ESI global rankings.

NO.3

DUT's Geological Resources
and Geological Engineering
ranked third in China in
Shanghai Ranking's Best
Chinese Subjects Ranking.

Independently won the first
prize of the National Science
and Technology Progress
Award twice

One of Double First-class
universities in China

State Key Laboratory of Geohazard Prevention and Geoenvironment Protection (SKLGP)

- ◆ China's only state key laboratory in the field of geohazard prevention and one of the internationally recognized centers for this discipline.
- ◆ The laboratory focuses on the theoretical and technical aspects of the occurrence background, formation mechanisms, early identification, monitoring and early warning, and engineering management of major geologic disasters induced by both natural and human activities in China.

State Key Laboratory of Oil and Gas Reservoir Geology and Exploitation (SKLOGRGE)

- ◆ China's first state key laboratory in the upstream field of the oil and gas industry.
- ◆ As a comprehensive research institution spanning all areas of oil and gas exploration and development, the laboratory has achieved a number of impactful breakthroughs and developed key technologies that have been successfully implemented in the industry, resulting in significant economic and social benefits.

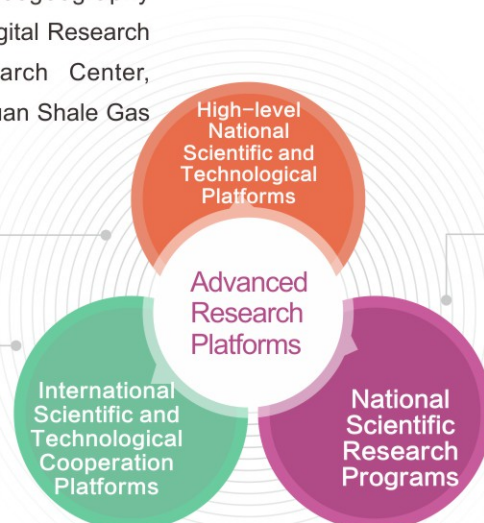

Advanced Research Platforms

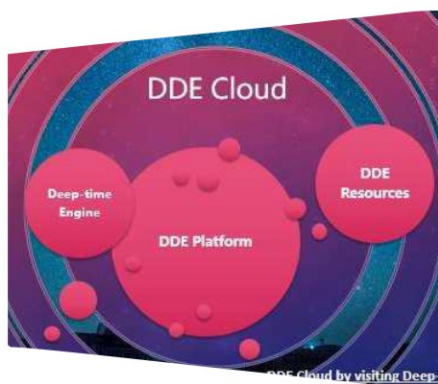

CDUT offers an exceptional environment for international students to enhance their academic and research capabilities. Backed by a wealth of advanced national technology platforms and scientific research projects, CDUT has achieved significant academic achievements, enabling students to connect seamlessly with the world's leading academic resources.

Yellow River Research Institute, Ecological Civilization Research Center, International Planetary Science Research Center, International Paleogeography Research Center, Hu Huanyong Line Digital Research Institute, Artificial Intelligence Research Center, Geothermal Research Center, and Sichuan Shale Gas Engineering Geology Research Office

- Deep-Time Digital Earth (DDE)
- ◆ Global Partnership for Smart Informatics and Multi-hazard Reduction (SIMR)
- ◆ International Research Association on Large Landslides (iRALL)
- ◆ International Joint Research Center for Geological Disaster Prevention and Geological Environment Protection

Mount Everest Scientific Research Program
Breakthrough results on planetary science and the Ediacaran phosphorus cycle published in Science and Nature

Comprehensive Academic Support

CDUT provides international students with comprehensive academic support. Through its high-quality programs for international students, international top-notch innovative talent development courses, international and domestic academic lectures, and platforms like iRALL School (International Research Association on Large Landslides) and SIMR(Global Partnership for Smart Informatics and Multi-hazard Reduction), CDUT significantly broadens students' horizons and enhances their unique learning experiences. CDUT's libraries, smart classrooms, diverse laboratories, and other facilities and resources support students in their scientific research and academic endeavors. Additionally, the university-enterprise cooperation practice platform offers students valuable internship and practice opportunities.

CDUT also offers a student activity center to foster interaction and learning among students, as well as on-campus venues like the Chengdu Natural History Museum//The Museum of Chengdu University of Technology and Sichuan Opera Museum, which provide a wealth of learning resources.

What You Can Study

Bachelor' s programs

College	Major	Language of Instruction	College	Major	Language of Instruction
College of Earth and Planetary Sciences	Resources Exploration Engineering	Chinese	College of Computer Science and Cyber Security	Computer Science and Technology	Chinese
College of Environment and Civil Engineering	Geological Engineering	Chinese		Software Engineering	Chinese
	Civil Engineering	Chinese	College of Mechanical and Electrical Engineering	Mechanical Engineering	Chinese
College of Materials and Chemistry & Chemical Engineering	Applied Chemistry	Chinese	College of Nuclear Technology and Automation Engineering	Electrical Engineering and Automation	Chinese
College of Geography and Planning	Tourism Management	Chinese	College of Energy	Resource Prospecting Engineering	Chinese
College of Management Science	Business Administration	Chinese		Oil and Gas Engineering	Chinese

Master's programs

College	Major	Language of Instruction	College	Major	Language of Instruction
College of Earth and Planetary Sciences	Geology	Chinese and English	College of Geography and Planning	Geography	Chinese and English
	Geological Resources and Geological Engineering	Chinese and English		Tourism Management	Chinese and English
	Surveying and Mapping Science and Technology	Chinese and English		Landscape Architecture	Chinese and English
College of Energy	Geological Resources and Geological Engineering	Chinese and English		Geological Resources and Geological Engineering	Chinese and English
	Oil and Gas Engineering	Chinese and English	College of Humanities and Law	Law	Chinese and English
	Energy and Power	Chinese and English		Social Work	Chinese and English
College of Environment and Civil Engineering	Geological Resources and Geological Engineering	Chinese and English	College of Foreign Languages & Cultures	Foreign Language and Literature	Chinese and English
	Civil Engineering	Chinese and English		English Translation	Chinese and English
College of Geophysics	Geophysics	Chinese and English		English Interpretation	Chinese and English
	Geological Resources and Geological Engineering	Chinese and English	College of Mechanical and Electrical Engineering	Industrial Design Engineering	Chinese and English
College of Nuclear Technology and Automation Engineering	Instrumentation Science and Technology	Chinese and English		Robotics Engineering	Chinese and English
	Nuclear Science and Technology	Chinese and English	College of Business	International Business	Chinese and English
	Electrical Engineering	Chinese and English		Computer Science and Technology	Chinese and English
	Nuclear Engineering	Chinese and English	College of Computer Science and Cyber Security	Computer Technology	Chinese and English

Life at CDUT: Where You Will Live

At CDUT, international students can enjoy a wealth of practical living resources. Comfortable dormitories provide a cozy retreat, diverse dining options cater to various tastes, and well-equipped sports facilities offer spaces for exercise and relaxation. These resources make life and study more convenient for international students.

Accommodation

Beyond the first-class academic environment, the living environment is also an indispensable part of the study abroad journey. International students at CDUT can choose to live on or off campus. Whichever you choose, we'll help you find comfortable and convenient housing.

◆ On-campus accommodation:

Living on campus is an excellent way to experience university life, make new friends, and engage in the student community.

Guaranteed quantity--CDUT's Chengdu Campus features a total of 29 student dormitory buildings.

Less hassle--Dormitories are within walking distance of the main teaching areas, and the CDUT campus bus can take you anywhere on campus.

Guaranteed safety --24-hour security and access control.

◆ Off-campus accommodation:

International students can also choose to live near the campus or in the city center. You can contact real estate agents directly via rental websites, or reach out to the CDUT volunteer team for advice on finding your ideal housing.

Sports Ground

From football pitches to climbing walls, CDUT offers first-class and ample sports venues, facilities and services for all. You can participate in diverse physical activities to boost both your physical fitness and mental well-being!

◆ Facilities

Wide sports space--CDUT's Chengdu Campus features over 100,000 square meters of sports venues, including indoor and outdoor gyms.

Diverse sports facilities --Climbing walls, basketball courts, football fields, athletic tracks, indoor/outdoor table tennis courts, indoor/outdoor tennis courts, swimming pools, etc.

◆ Services

Free access: Basketball courts, volleyball courts, athletic tracks, and outdoor table tennis courts are available for free during off-class hours and holidays.

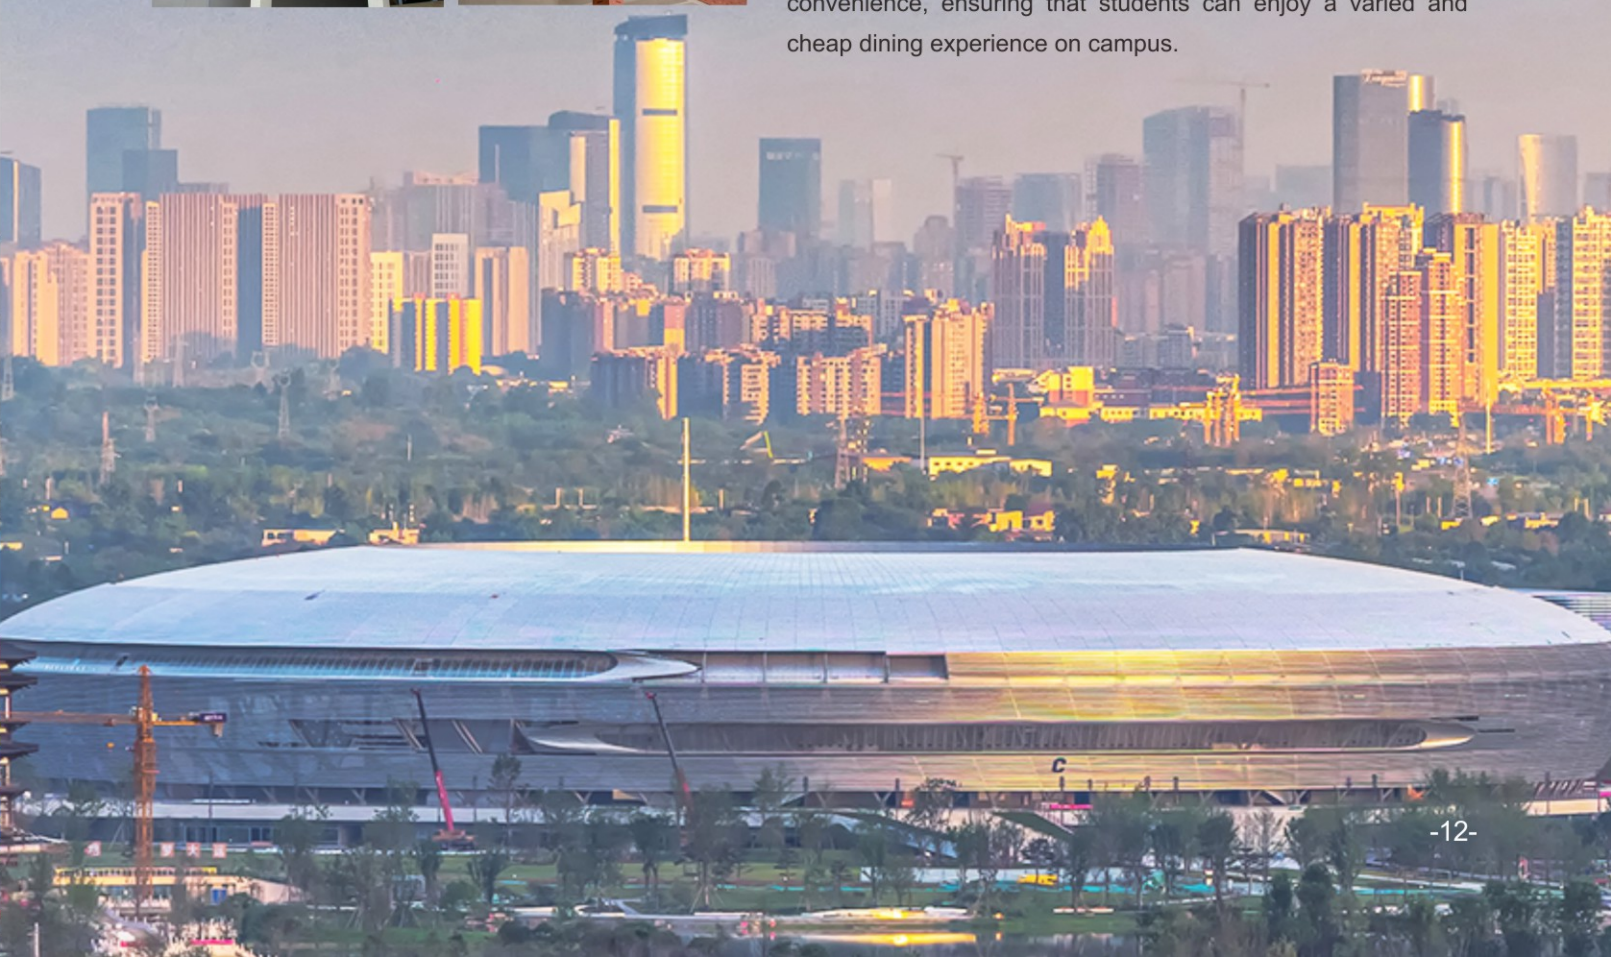

Security and hygiene: Each sports venue is staffed with a friendly and attentive service team to ensure security and hygiene.

Dining halls

CDUT's Chengdu Campus has four dining halls that provide specialty meals catering to the diverse needs of international students from around the world. It offers students a diverse selection of dishes while also ensuring affordability and convenience, ensuring that students can enjoy a varied and cheap dining experience on campus.

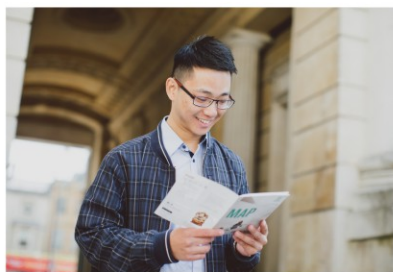

How We Support Our Students

This might be your first experience of living abroad independently, and you may feel overwhelmed. Take it easy! Our professional and caring teams will do their utmost to provide you with all kinds of support and services!

International Section of Student Affairs

Our dedicated International Section of Student Affairs assists international students in handling visa applications, residence permits, insurance, and medical examinations. They offer a friendly welcome to help international students integrate into life and study at CDUT and in Chengdu.

International Student Association (ISA)

The International Student Association (ISA) is a group of international students dedicated to providing services to international students.

ISA has various departments to communicate and address the legitimate needs of international students. These departments also provide opportunities for self-expression and personal growth.

ISA has a separate department to help organize lectures and exchange events, inviting distinguished experts, scholars and teachers to share cutting-edge knowledge and enhance students' academic ability.

ISA members organize diverse cultural and sports activities and lead international students to visit historical sites and cultural landmarks to promote cultural exchange and improve cross-cultural communication skills.

ISA members also provide psychological support services for international students. If you feel too much pressure from study or life, talking to them can help you relax.

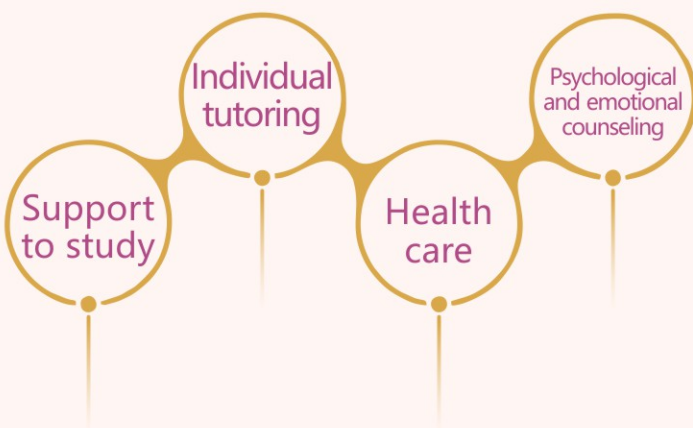

CHENGDU UNIVERSITY OF TECHNOLOGY

Wellbeing services

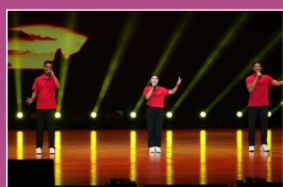

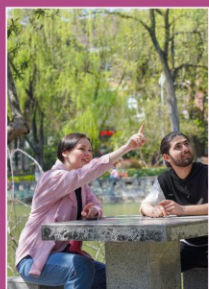

CDUT features an affiliated hospital, psychological counseling rooms, and a section of student affairs of each school, all staffed by friendly and professional support personnel who provide a range of support services.

Other support services

CDUT also has a professional volunteer team to provide detailed services. From the moment you arrive in Chengdu, our volunteers will guide you around the campus and help you quickly get accustomed to campus life.

Join us and you will have the opportunity to participate in various activities, meet friends from around the world, and broaden your international horizons. Here, you can showcase your talents, learn to interact with others, and grow together with your peers.

Student activities

CDUT offers a broad platform with numerous activities and competitions, including international cultural festivals, football games, and visits to renowned universities and companies for academic exchanges. These events also provide ample opportunities for you to make friends!

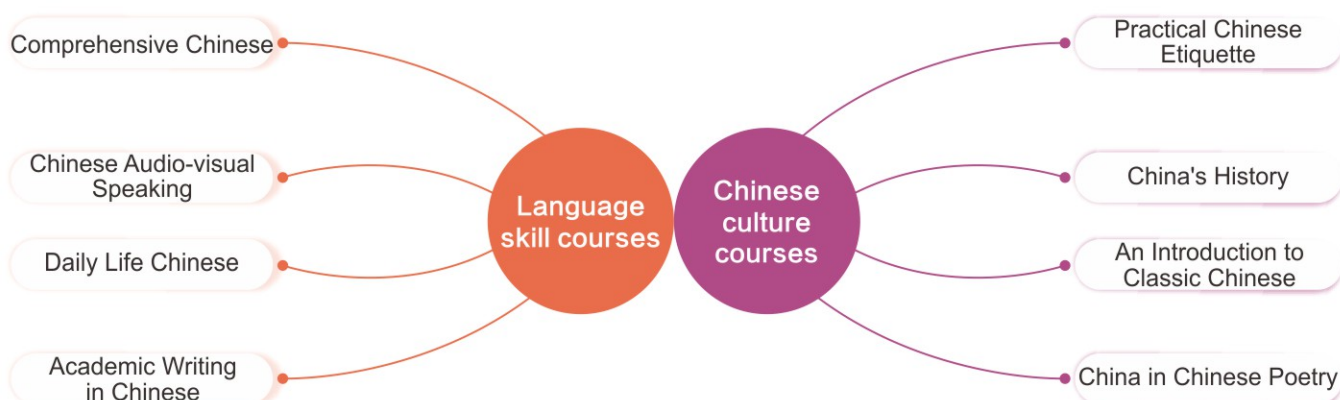

The International Cultural Festival is a must-see event on campus. It facilitates cross-cultural exchanges, enabling students from diverse backgrounds to foster friendship and joy and appreciate the beauty of cultural integration.

In terms of sports competition, you'll have access to a wide range of activities, including marathons, football games, basketball games, etc. Our first-class sports facilities allow you to shine in sports, showcasing your perseverance and personal charisma.

Chinese Language Learning and Traditional Culture Experience

Chinese Language Learning

Traditional Culture Experience

Beyond the structured coursework, we will facilitate a range of cultural activities designed to provide participants with firsthand exposure to Chinese culture.

Exploration of historical and cultural landmarks: Engage in visits to prominent sites such as Du Fu Thatched Cottage, Sanxingdui, and Dujiangyan to appreciate the elegance of ancient Chinese architecture and the depth of its historical heritage.

Investigation of modern urban development: Explore metropolitan centers like Shanghai and Shenzhen to gain insights into China's rapid economic growth and technological innovations.

Engagement with traditional arts: Take part in workshops featuring traditional Chinese art forms, including calligraphy, painting, tea ceremony, and paper cutting, to explore the distinctive charms of Chinese artistic traditions.

Immersion in folk culture: Participate in traditional festival celebrations, attend local opera performances, and experience the richness and diversity of Chinese folk customs.

Characteristics of Courses

We offer an immersive and comprehensive platform for mastering the Chinese language and exploring Chinese culture, empowering you to acquire valuable knowledge and achieve personal growth! Through a well-rounded combination of oral practice, writing training, cultural experiences, and field trips, our program is designed to significantly enhance your Chinese proficiency, enabling you to confidently pass HSK 4 exam upon graduation and setting you on a path toward a promising future.

Tuition Fees and Scholarships

Choosing to study at CDUT is an investment in your potential and career! Our study-abroad program provides a range of standards for tuition, accommodation fees, additional benefits, etc.

Tuition Fees

Item	Category	Unit	Amount
Registration fee	All categories	RMB/student	600
Tuition fee	Literature and History (for undergraduate students)	RMB/student/academic year	4500
	Science and Engineering (for undergraduate students)	RMB/student/academic year	5000
	Literature and History (for postgraduate students)	RMB/student/academic year	18000
	Science and Engineering (for postgraduate students)	RMB/student/academic year	19800
	Literature and History (for doctoral students)	RMB/student/academic year	22000
	Science and Engineering (for doctoral students)	RMB/student/academic year	24000
Accommodation fee	All categories	RMB/student/academic year	1500
Textbook fee	All categories	RMB/student/academic year	Subject to actual conditions
Insurance premium	All categories	RMB/student/academic year	800

Scholarships

Type	Standard (RMB)	Remarks
Chinese Government Scholarship	RMB 70,000–90,000 per academic year, including tuition fee, living expense, accommodation fee, and insurance premium.	Applicable to applicants pursuing a doctorate or master's degree
Sichuan Provincial Government Scholarship for International Students	For undergraduate students: RMB 20,000 per academic year For postgraduate students: RMB 25,000 per academic year For doctoral students: RMB 30,000 per academic year	Applicable to doctoral, postgraduate, and undergraduate students
Chengdu Government Scholarship for International Students	For undergraduate students: RMB 20,000 per academic year For postgraduate students: RMB 25,000 per academic year For doctoral students: RMB 30,000 per academic year	Applicable to doctoral, postgraduate, and undergraduate students
CDUT scholarship	The CDUT scholarship will be provided to master's and doctoral degree applicants on merit, who have excellent academic records and meet CDUT's criteria. CDUT scholarship recipients are exempt from registration, tuition, and accommodation fees, with insurance premiums covered by CDUT.	Applicable to applicants pursuing a doctorate or master's degree
Living allowance	For doctoral students: A monthly living allowance of RMB 1,500 will be provided for 10 months per year throughout the duration of study of four years. For postgraduate students: A monthly living allowance of RMB 1,000 will be provided for 10 months per year throughout the duration of study of three years. For undergraduate students: A monthly living allowance of RMB 800 will be provided for 10 months per year throughout the duration of study of four years.	Applicable to admitted students
Project subsidy	Doctoral and postgraduate students participating in their supervisors' scientific research projects may receive appropriate subsidies commensurate with their actual contributions to the projects.	/

How to Apply

We warmly welcome applicants from around the globe. Our dedicated team is eager to review your application and looks forward to getting to know you. Follow the process below to ensure your studies start on the perfect note!

STEP1

Select your preferred program:

Identify the program you wish to apply for by referring to the options listed on pages 11-12

STEP2

Confirm your eligibility

Admission requirements: Ensure that you meet the program's academic and language (Chinese or English) proficiency requirements.

Academic requirements: Provide your highest academic certificate and transcript. If these documents were issued outside China, they must be notarized locally and authenticated by the Chinese embassy or consulate in the issuing country.

Language requirements: Applicants for undergraduate, postgraduate, and doctoral programs taught in Chinese must provide an HSK Level 4 or higher certificate. Applicants for programs taught in English must demonstrate sufficient English proficiency to successfully complete their studies.

STEP3

Create an account and submit application information

Visit the CDUT International Student Service Platform to create an account by clicking the link down below: <https://cdut.at0086.cn/student>

Complete the online application: Follow the steps: "Create New Account → Online Application → Select an Enrollment Category → Undergraduate or Postgraduate/Doctoral Student Program" after clicking the link. Complete the application form and upload all required documents as outlined in the application requirements.

Note: One passport number can only be used to apply for a single degree program.

STEP4

Submit your application

CDUT's International Section of Student Affairs will review your application and inform you of the outcome.

For detailed information on academic and language requirements, the application process, visa application procedures, and other admission-related matters, please visit our official website for the most up-to-date information.
